YDM3109

Premium Proximity card Digital Door Lock
with anti-panic

The world's favourite lock

Reliable

Convenient

Safe

Various Access

The Yale YDM3109 can be unlocked with Pin code or Key card.

Cryptic Code

The cryptic code function helps to prevent onlookers from identifying your pin code during access.

Operation Status Notification

Whenever any operation is made, the keypad informs you what is happening through different alignment of the numbers.

Mechanical Key Override

Can also be unlocked with a mechanical key.

Missing Key Invalidation

If you lose your Key card the old card will automatically be deleted upon registration of a new key card.

Automatic Locking

The Yale Digital Door Locks series automatically locks the door after checking it is properly closed. (Manual operation is also available.)

Anti-Panic Egress with Safe Handle

For convenience and in case of emergency, the door is automatically unlocked whenever the inner lever handle is used.

Alarm (Break-in / Damage)

80dB alarm goes off if anyone attempts to damage the lock or force the door open.

Low Battery and Emergency Power

In the event the battery goes flat, two battery contact points will fit a standard 9V battery. A temporary charge will allow entry with the pin or key card.
