

The world's favorite lock

Magical Keyless Innovation

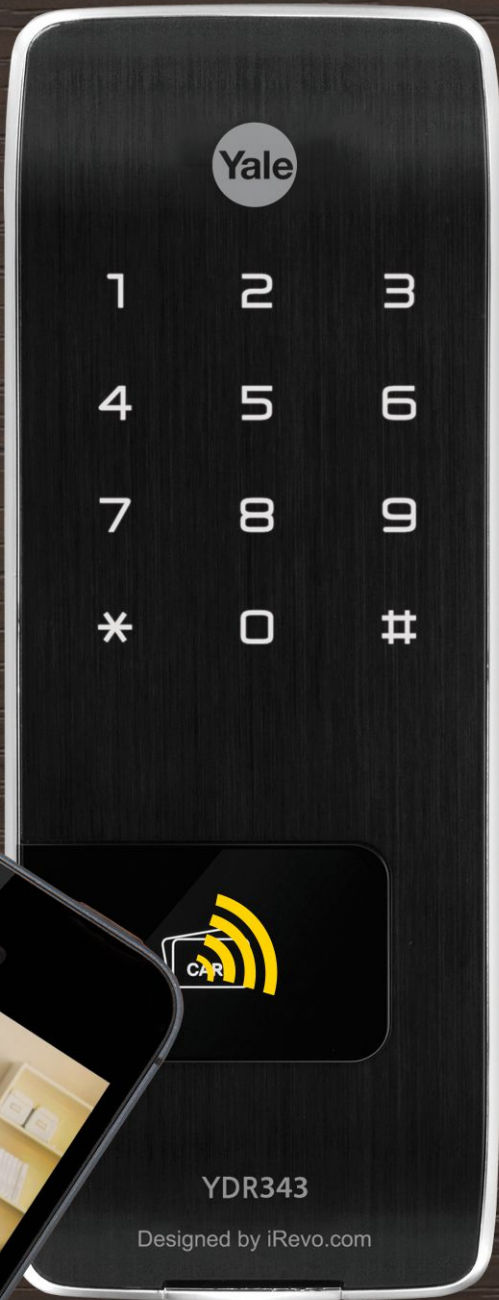

with mobile smart chip technology

- Digital Vertical Rim Lock
- RF Smart Chip & Touch Keypad

World's
Slimmest
Digital Door Lock

11mm Super
Slim Design

The Yale Collection

Smarter Solutions for your home.

Yale Digital Door Locks brings to you YDR343 - a keyless innovation equipped with the latest RF smart chip technology. The combination of convenience and security ensure that you have your peace of mind, at all times. It's as simple as placing your mobile with the RF smart chip over our slim lock to make your entry. However our technology is not that simple. These powerful locks are impossible to break open without the authorized RF smart chip. Magical, isn't it?

YDR343

Digital Door Lock

Convenient

Safe

11mm
Slim Design

Mobile Access

Now access your digital door lock through mobile RF smart chip technology

Various Access

Yale YDR343 has two access solutions, PIN code or RF Card/ Smart chip for your convenience

Safe Thumb Turn

The thumb-turn knob can only be turned if the user simultaneously pushes the two buttons affixed on it. This offers higher security as compared to a normal knob

Missing Key Invalidation

Once you lose your key, it has no validation as long as you re-register rest of your keys

Modern and Slim Design

Elegant design aesthetics used while incorporating a digital keypad on a solid base

High Temperature Alarm

In case of fire, the alarm goes off and released the lock status automatically by detecting the internal high temperature

Fake PIN Code

To prevent the PIN Code from being exposed, It allows you to enter fake numbers before or after entering your PIN Code

Remote Control (Optional)

Remote control option is also available. Wireless Floating ID technology that works up to 50 m
